IP Camera M4-TY Laxihub WiFi 1080p Tuya

Ref: 6972055682057

IP Camera M4-TY Laxihub WiFi 1080p Tuya

IP Camera M4-TY Laxihub WiFi 1080p Tuya

Take care of the security in your home. The Laxihub M4-TY camera detects motion and sound, sends alerts and provides excellent quality Full HD 1080p video. It supports 2-way audio and is compatible with Arenti and Tuya Smart apps, as well as with Google Assistant and Amazon Alexa voice assistants. The device will also help you protect your privacy. It also records 60-second videos when it detects motion. You can save the recorded footage to a micro SD card of up to 128GB or to Amazon's AWS cloud - when you buy the camera, you also get a 3-month free trial.

Excellent day and night image quality

The camera enables effective monitoring 24 hours a day. It offers superb 1080p/25FPS image quality and enhanced Night Vision with a range of up to 10m. This means you can always see what is going on in your home - not only during the day, but also at night. The device is equipped with a high quality 105° wide angle lens - so you see more! You can also zoom in up to 2x in the camera preview without worrying about losing quality.

Efficient motion and sound detection

Notify yourself immediately of any disturbing events in your home. When the camera detects unusual motion or sound, it will send you a notification to your phone. You can also adjust the sensitivity of AI detection. This way, you don't have to worry that the device will alert

you even if a bird or a small animal comes within its range.

In the interest of your privacy

When you activate the Arenti Cloud service, your data will be securely stored in Amazon's AWS cloud. The cameras can also be automatically turned off when using the same Wi-Fi network as your phone. This means they won't work when you're at home. You can also turn the device off at any time with a single click. You can also create schedules for the M4-TY. The product also supports Geo-fencing privacy mode.

Built-in speaker and microphone

The camera is equipped with a speaker and microphone. It supports 2-way audio and provides very good sound quality, which means you can communicate freely with your loved ones using the Arenti app. So you can easily talk to your child or your partner when you are not at home. The device is also compatible with Amazon Alexa and Google Assistant, allowing you to operate it by voice. With just a few words, you can see a preview from the camera on, say, a device paired with Chromecast!

Convenient storage of footage

If the camera detects motion, it can record video up to 60 seconds in length - much longer than most cameras on the market. The M4-TY also offers a free 3-month trial of a cloud storage service for the last 72 hours of footage. If necessary, you can view the stored footage at any time. The product is also compatible with micro SD FAT32 cards of up to 128GB - you can export videos from them in MP4 format.
