

USB-A 3in1 cable, Essager, EXCMTL-JJ01-P, USB-C/Lightning/Mi

Ref: 6971958731442

USB-A 3in1 cable, Essager, EXCMTL-JJ01-P, USB-C/Lightning/Micro, 100W, 1.2m (black)

USB-A 3-in-1 Cable, Essager, EXCMTL-JJ01-P, USB-C/Lightning/Micro, 100W, 1.2m (black)

The Essager cable combines three different connectors (USB-C, Lightning and Micro USB). The accessory allows simultaneous charging with 100W power and data transfer from multiple devices.

100 W power

With charging power of up to 100 watts, the cable allows you to charge even the most demanding devices in no time. For example, the Honor 60 Pro can reach a full charge in just 27 minutes. No longer do you have to wait a long time for your equipment to be ready to work again.

Three connectors

The unique 3-in-1 design includes USB-C, Lightning and Micro USB connectors, which allow you to charge and sync a wide variety of devices simultaneously. Whether you're using an Android smartphone, iPhone or other electronic devices, the Essager cable will meet your needs.

Smart charging technology

Essager Pro Charging Technology is an advanced system that intelligently adjusts voltage, current and power distribution to ensure fast

and safe charging. The built-in chip prevents overheating and damage to devices, ensuring long-lasting and safe use.

Fast data transfer

Support for the USB 2.0 standard enables high-speed data transfer at up to 480 Mbps. With the Essager cable you will efficiently transfer documents, photos and other files between devices.

Durable design

High-quality materials, such as aluminum alloy and 24-strand PP yarn, ensure wear resistance and long product life. In addition, the reinforced interface is resistant to bending, which minimizes the risk of mechanical damage.
