USB-C to USB-C cable, Essager, EXCTT1-YS01-P, 100W, 1m (black)

USB-C to USB-C cable, Essager, EXCTT1-YS01-P, 100W, 1m (black)

The USB-C to USB-C cable offers 100W of power and supports PD240W fast charging, allowing you to efficiently prepare your laptops, tablets and phones for further use. With magnetic technology, high-quality workmanship and smart features, the accessory is ideal for any user who values both performance and convenience.

#### Magnetic storage method

The innovative magnetic storage method ensures that the Essager cable always remains neatly coiled and ready for use. With magnets along the cable, it can be easily coiled and stored without worrying about tangling.

#### Performance

The Essager cable supports PD240W fast charging, so it renews the power of compatible devices up to 2 times faster than standard cables. The ability to transfer data at speeds of up to 480 Mbps provides added convenience. The USB 2.0 standard guarantees stability and speed of transfer.

#### High quality workmanship

The product is made of high-quality materials, including aluminum and TPE, and a high-density braiding process was used during its

production. The solution used ensures not only aesthetic appearance, but also durability and resistance to wear.

#### Intelligent chip

The E-Marker chip is responsible for controlling the charging protocol, ensuring that the current and voltage are optimally matched to the connected device. This way you can be sure that charging is done efficiently and safely.

#### Compatibility

With the Essager cable you will charge laptops from Apple, Huawei, Xiaomi, Dell, Lenovo or HP brands. The accessory is also compatible with iPhones and other smartphones equipped with a USB-C port. You can also successfully connect a Nintendo Switch or PS5 console to it.
