Ref: 6975253973729

Essager ECT2CA-ZXB01-Z GaN USB-A, 2xUSB-C 100W Power Charger (black).

The Essager ECT2CA-ZXB01-Z offers 100 watts of power to quickly charge laptops, smartphones and other electronic devices. What's more, the USB-A and 2xUSB-C interface allows three devices to be connected simultaneously. Meanwhile, thanks to GaN technology, the device guarantees efficient and stable performance.

Efficient, fast charging

Thanks to GaN (gallium nitride) technology, the Essager charger offers exceptional charging performance and speed. GaN allows a higher degree of energy conversion with less heat emission, resulting in a more efficient charging process. In just 30 minutes, the charger can charge a MacBook Pro 16 to 55%, and an iPad and iPhone to 60%.

Multifunctionality and versatility

The Essager ECT2CA-ZXB01-Z allows three devices to be connected at the same time, increasing its functionality and convenience. The two USB-C ports can deliver up to 100 watts each, which is enough to charge even the most demanding devices, such as laptops. The USB-A port offers up to 18 watts, making it ideal for charging smartphones or other smaller devices.

Advanced protection

Safety is a key aspect of the Essager ECT2CA-ZXB01-Z charger. Equipped with advanced protection systems, it protects your device from damage. Short-circuit, overvoltage, overcurrent, overcharging and overheating protections ensure that the charging process takes place safely. This allows you to charge your devices without worrying about damaging them.

Compatibility and versatility

The Essager charger is compatible with a wide range of fast charging protocols such as PPS, PD3.1, PD3.0, PD2.0, QC4.0, QC3.0, QC2.0, FCP, SCP, BC1.2, DCP, Apple 2.4A and Samsung 2A and Samsung AFC. In addition, thanks to the wide input voltage range of AC 100-240V, the charger can be used abroad, making it an ideal travel companion.
