Nillkin iSketch S3 stylus for Apple iPad (white)

The iSketch S3 stylus from Nillkin is the perfect choice for any creative spirit looking for the perfect tool for writing and drawing on the iPad. With its proprietary Itouch 3.0 technology, it offers sensitive and smooth touch response, allowing you to present your creative ideas conveniently. Its magnetic design allows for convenient storage without worrying about losing it.

Precision at your fingertips

The iSketch S3 stylus is the quintessential precision for drawing and writing. Thanks to its innovative Itouch 3.0 technology, it allows for extremely sensitive touch response, enabling you to render every detail of your creations with precision. Angle and pressure sensitivity allows you to control the thickness of your lines depending on the angle at which you hold the stylus and the pressure with which you work.

Up to 10 hours of working time

With a working time of up to 10 hours after one full charge, the Nillkin iSketch S3 stylus can serve you for a long time. Its charge will take just 45 minutes, so you'll be back to work in no time. Want to control the battery charge level? Just connect it to your iPad via Bluetooth! What's more, the sleep mode automatically activates after 5 minutes of inactivity, saving power and extending the stylus' working time.

No worries about scratching

The stylus tip is made of high-quality POM plastic, so it will not only impress you with its durability, but also will not scratch your tablet's screen. If necessary, you can easily replace it - just twist it.

Included:

stylusreplaceable tip x2
