USB Cable Essager EXC7A-CG01-P USB to USB-C 100W 1m (black)

Essager EXC7A-CG01-P USB to USB-C 100W 1m USB cable (black).

The Essager USB-A to USB-C offers high charging power, high-speed data transfer and rugged construction. With up to 100 watts of output power and a smart chip, the cable adjusts the charging intensity to the connected equipment, ensuring fast and safe charging. Ideal for a variety of devices, it offers the performance and durability you need for everyday use.

Exceptional charging performance

The Essager cable can generate charging power of up to 80 watts with compatible 11 V / 7.3 A chargers, allowing you to quickly charge your devices. You will renew the OPPO K10 Pro's energy in about 31 minutes. The cable supports 100/80/66/40/22.5 W charging, making it an ideal choice for a wide range of devices, including smartphones, powerbanks and desktop accessories.

Fast data transfer

In addition to efficient charging, the Essager cable allows data transfer at 480 Mbps. This means transferring photos, videos and other files between devices is fast and efficient, saving you time and increasing productivity.

Robust design

Made of high-quality aluminum alloy and equipped with a copper core, the Essager cable is extremely durable and resistant to wear and

tear. The break-resistant design and corrosion-resistant connector ensure long-lasting use without worrying about damage. In addition, the light indicator allows you to quickly locate your smartphone after dark, which is extremely practical for everyday use.

Wide compatibility

The Essager USB-A to USB-C 100W cable is compatible with a wide range of devices from brands such as Huawei, Honor, OPPO, VIVO, Samsung, as well as various accessories such as powerbanks, desk lamps and fans. As a result, no matter what kind of devices you have, this cable will be the ideal choice for their charging and data transfer.

Stable and efficient operation

Thanks to its copper core, the Essager cable ensures stable and efficient operation. A smart chip adjusts the charging intensity according to the connected device, which not only speeds up charging, but also protects the battery from damage.
