Gimbal Hohem iSteady V3 Kit for Phones (black)

The Hohem iSteady V3 Kit Gimbal is a versatile tool that provides professional stabilization, superior lighting and convenience. Its advanced features, such as magnetic tracker, brightness control and folding capability, make it an ideal choice for both novice photographers and professionals. With its long battery life and universal compatibility, the Hohem iSteady V3 Kit gimbal is an indispensable piece of equipment for anyone who wants excellent recording and shooting results in any situation.

Innovative technology and versatility

Equipped with iSteady 8.0 technology, this gimbal provides excellent stabilization thanks to its advanced 3-axis algorithm, eliminating all shake and jitters during recording. This device works well in a variety of scenarios - from daily vlogs and live reports to professional videos shot during travel or intense exercise.

Magnetic tracker and creative recording features

One of the key features of the Hohem iSteady V3 is the built-in magnetic tracker, which allows precise tracking of a selected object or person. The technology is based on hand movements, allowing easy control of the equipment - with just the right gesture, you can start or stop tracking, change from portrait to landscape mode, or turn off the gimbal. With Creative Studio in the Hohem Joy app, you can experiment with different recording patterns and techniques, such as panorama mode, dolly zoom, and timelapse.

Excellent lighting and brightness control

Hohem iSteady V3 Kit is equipped with advanced lighting features that provide a maximum illumination of 110 lux. With three color temperature filters (cool 6500K, warm 2700K and neutral 5000K), you can adjust the lighting to suit any situation. The side wheel allows you to smoothly control the brightness of the light from 4% to 100%, and the adjustment buttons allow you to quickly and easily change the intensity of the lighting, giving you full control over the end result.

Portability and convenience of use

The Hohem iSteady V3 gimbal features a lightweight, foldable design that makes it extremely easy to carry and will fit into any bag or backpack, and its handy design makes working with the gimbal convenient and precise. The built-in 205mm long pole can be extended, allowing you to capture a wider perspective and more people or objects in the frame. In addition, the detachable remote control can be used on its own or attached to the gimbal's handle, which simultaneously charges the remote, which is extremely convenient during long recording sessions.

Universal compatibility and long working time

The Hohem iSteady V3 Kit is compatible with various operating systems, such as iOS and Android, and supports live reporting and video conferencing apps. The device has a powerful battery that provides up to 13 hours of operation on a single charge, making it the perfect companion for long recording sessions. From now on, let nothing limit you.

Included

- gimbal
- magnetic tracker
- detachable remote control/controller
- USB-C cable
- imbus
- storage bag

- warranty card

Manufacturer

Hohem

Model

iSteady V3

Color

black

Weight

420g

Dimensions

127 x 65 x 312 mm; folded: 98 x 44 x 160.5 mm

Material of construction

high quality composite material

Maximum load

300g

Phone width

58mm - 98mm

Battery capacity

1400 mAh

Working time

Approximately 13 hours (4 hours with tracker on)

Power consumption

0.8W

Battery charging time

2.5 hours

Controlled angles

Panoramic mode from -120° to 210°, rotation from -195° to 135°, tilt from -35° to 45°

Operating temperature

from -10°C to 45°C

Motor protection

The gimbal will automatically shut down in case of improper operation to protect the motor

Weight of the tracker

133.6g

Dimensions of the tracker

42 x 16.5 x 25mm

Tracker lens resolution

1 mp

Gesture recognition distance

0.5-2m

Tracking distance

0.5-5m

Light power

2W

Illumination

110 lux

Color temperature

6500K (cool), 2700K (warm), 5000K (neutral)
