Hohem iSteady M6 Gimbal

The Hohem iSteady M6 Gimbal is a versatile tool for anyone who wants to create professional videos with excellent stabilization and creative effects. With its advanced technology, intuitive operation and long battery life, the iSteady M6 is an ideal choice for content creators, vloggers and streamers. Its rugged construction, ergonomic design and expandability with additional accessories make it an indispensable accessory in any creator's arsenal.

Reliable 3-axis stabilization for content creators

The Hohem iSteady M6 is an advanced 3-axis gimbal designed for vloggers, streamers, travelers and filmmakers. With the ability to move freely within 335 degrees and infinite 360-degree rotation, the gimbal offers full flexibility to record from different angles and perspectives. The improved 3-axis design with iSteady 7.0 anti-shake system ensures smooth and stable shots, even during intense physical activities such as running or walking.

Creative possibilities

The gimbal supports a variety of modes, such as sports mode, inception mode, dolly zoom, time-lapse mode and more, allowing you to realize creative ideas without the need for additional apps or Bluetooth.

High performance and versatility

With a maximum load capacity of up to 400g, the Hohem iSteady M6 gimbal easily holds larger smartphones, ensuring stability and reliability. The 0.91" OLED display makes it easy to monitor various parameters such as battery status, gimbal modes and Bluetooth functions. The built-in high-capacity battery provides up to 18 hours of continuous operation, and reverse charging support allows you to charge your smartphone while recording video, eliminating the problem of low power levels.

Ergonomic design and versatile features

Ergonomic design and versatile features

The iSteady M6 gimbal features an ergonomic grip with a non-slip texture that provides a secure grip and comfort during prolonged use. The roll axis arm is equipped with accurate balancing weights to help perfectly balance the smartphone. The gimbal can be turned on independently of the phone's position, making it easy to capture an unobstructed view when the screen is facing the roll motor.

Multiple expansion options

With four 1/4"-20 UNC ports, the Hohem iSteady M6 Kit allows you to connect a variety of accessories such as microphones, LED lights or additional mounts, unlocking the full creative potential of this device. Intuitive A-B motion buttons and a multi-function trigger allow you to take time-lapse shots on the move, and activate modes such as ultra-wide-angle and sports, making the gimbal the perfect tool for any film production.
