

## TESSAN power strip TS-PS02DE00 (white)

TESSAN power strip TS-PS02DE00 (white)

Ref: 6975799319524

TESSAN TS-PS02DE00 power strip (white)

The TESSAN TS-PS02DE00 power strip will help you manage multiple electrical devices in your home or office on a daily basis. With the ability to connect as many as six plugs simultaneously, it provides complete convenience, eliminating the need for multiple individual outlets. Equipped with USB-A and USB-C ports, it allows you to charge your mobile devices without the need for separate chargers.

### Multiple charging options

The strip has six AC outlets and three USB ports - two USB-A and one USB-C. This means you can simultaneously power home appliances like lights, laptops and TVs, and charge your phone, tablet or other accessories. USB-C supports fast charging of up to 25W, which is ideal for quickly restocking the latest devices.

### Safety first

Safety of use is a priority. The power strip is made of fire-resistant PC plastic, which provides protection against overheating and accidental short circuits. In addition, the overload protection function ensures that devices are protected from damage, even under heavy use.

### Practical mounting solutions

Thanks to its wall-mounting capability, the power strip does not take up space on a desk or countertop. It also uses non-slip feet that ensure the device remains stable, regardless of its location.

#### Intuitive operation

A convenient on/off switch allows for easy power management, which helps save electricity when you don't need to use the strip. An additional power indicator discreetly lets you know when the device is active without disturbing your sleep or work.

Manufacturer: TESSAN  
Model: TS-PS02DE00  
Maximum power: 4000W  
Input voltage: 100-250V~, 50-60Hz, 16A  
USB input: 100-250V~, 50-60Hz, 0.5A  
USB-A output: 5V □ 3A / 9V □ 1.67A  
USB-C output: PD 5V □ 3A / 9V □ 2.22A / 12V □ 1.67A, 20W MAX  
USB-C PPS Output: 3.3V-11V □ 2.25A, 20W MAX  
Maximum DC output: 15W MAX
