Power Bank Mcdodo MC-3710 Digital Dis 20000mAh, 22.5W (black).

The Mcdodo MC-3710 powerbank is the ideal solution for those in need of a reliable and multifunctional power source. With a capacity of 20000mAh, it can charge smartphones, tablets and other mobile devices several times, making it the perfect companion for long trips. In addition, the compact, rugged design means you can take it with you almost anywhere, and the built-in Lightning cable eliminates the need to carry extra cables.

20000 mAh capacity

With an impressive 20000 mAh capacity, the Mcdodo MC-3710 powerbank can provide long-lasting power to your mobile devices. For example, with its help you will charge your iPhone SE3 as much as 5 times, iPhone 14 about 3.5 times, and Xiaomi 13 about 2.5 times. Don't be afraid of having to charge it frequently!

Super-fast charging of 22.5 watts

Mcdodo MC-3710 offers support for fast charging technology with up to 22.5 watts of power. This ensures that your devices will be charged in record time! The product is also compatible with PD, QC, FCP, AFC and BC1.2 standards, so you won't have to wait too long for your equipment to be ready to use.

Built-in Lightning cable for convenience

One of the biggest advantages of the Mcdodo MC-3710 powerbank is the built-in Lightning cable, which eliminates the need to carry extra cables. It supports 20W fast charging, giving you even more freedom. It can also act as a practical holder, making it easy to carry your device.

Charge up to three devices simultaneously

The Mcdodo MC-3710 powerbank is equipped with USB-A and USB-C output ports, and also offers a built-in Lightning cable. This allows you to charge up to three devices at the same time! This is great when you need to charge several devices at once, without having to wait.

LCD display

The device has a built-in LCD display that shows the battery charge status and fast charging status. This way you always know how much energy is left - with Mcdodo you can enjoy full control!

Charging safety at the highest level

Mcdodo MC-3710 offers an advanced protection system, including protection against overheating, overvoltage, overload and short circuit. This keeps your devices safe and the powerbank works reliably in all conditions. You can even take it with you on a plane - it complies with international air traffic standards.
