

## Magnetic Power Bank for Apple watch Mcdodo MC-1461 10000mAh,

Magnetic Power Bank for Apple watch Mcdodo MC-1461 10000mAh, 20W (black)

Ref: 6921002614610

Magnetic Power Bank for Apple watch Mcdodo MC-1461 10000mAh, 20W (black).

The Mcdodo MC-1461 is a state-of-the-art 10,000mAh powerbank designed specifically for Apple device users. With its magnetic technology and compatibility with both the iPhone, Apple Watch and AirPods, it is ideal for those looking for a convenient and efficient way to charge their devices on the go.

### Large capacity for uninterrupted use

With a capacity of 10,000 mAh, the MC-1461 offers enough power to charge an iPhone 15 to full about 2 times and an Apple Watch 9 up to 19 times. This makes the powerbank an indispensable companion for both daily activities and longer trips, ensuring uninterrupted operation of your devices.

### Magnetic stability and convenience

With its built-in 15+1 magnets, the N52 Mcdodo MC-1461 provides excellent traction, ensuring that your devices are held stably while charging. The powerbank won't shift during use, ensuring hassle-free charging of both your iPhone and Apple Watch - even on the move.

### Stand for greater functionality

The device features a patented hidden stand that allows you to position your phone both vertically and horizontally. This is ideal when

you want to charge your smartphone and watch a movie or participate in a video conference at the same time! In addition, the digital display allows you to quickly check the charge level of the powerbank, and the practical button makes it easy to use.

#### Wired and wireless charging

Mcdodo MC-1461 allows you to wirelessly charge your iPhone with up to 15 watts of power and your Apple Watch (up to 2.5 watts). You can also charge selected devices wired, in which case the power will be up to 20 watts. This flexibility allows you to charge your devices faster when you need it.

#### Advanced security features

The power bank is equipped with a number of advanced protection systems, including protection against overheating, overloading, overvoltage and short circuit. So you don't have to worry about damaging your devices! In addition, an NTC sensor monitors and regulates the charging temperature, providing an extra level of protection.

#### Lightweight and compact

The dimensions of the powerbank are only 109 x 69 x 21.5 mm, and it weighs about 220 g. This makes it extremely handy and easy to transport. It will be perfect for use at home, at work and while traveling! What's more, its slim design means that it won't obscure your smartphone's camera lens - so you can freely take photos on trips.
