Ref: 5906168439896

Wireless headphone with microphone New Bee M53 (black)

Wireless handset with microphone New Bee M53 (black)

The M53 Bluetooth handset is an ideal solution for people who care about high quality HIFI sound during phone calls. The device is designed for drivers, office workers, etc. The M53 offers a stable Bluetooth 5.0 connection, clear sound and advanced noise reduction, so you can use it without worrying about interference.

ENC and CVC 8.0 noise reduction

The M53 handset features a dual microphone with ENC and CVC 8.0 technology, which effectively eliminates ambient noise for clear and crisp sound during calls. Whether you're walking through a crowded city, an open-plan office or driving, your voice will always be heard clearly by your caller.

Ergonomic design

The M53 features an ergonomic design that allows you to wear the handset all day without feeling uncomfortable. The flexible microphone can be rotated 270°, allowing you to adjust its position to suit your personal preferences. Whether you wear the earphone on your left or right ear, you have full control over its positioning.

Multifunctional buttons

The M53 Bluetooth handset is equipped with intuitive buttons that make it easy to operate the device. With them, you can easily answer calls, adjust the volume, switch songs, and use the microphone mute function - all with a single click.

#### Long operating time

The handset allows up to 10 h of talk time on a single charge, and its standby time is up to 180 days. In addition, the 500 mAh charging case provides a quick charge in just 1.5 h, so the handset is always ready for the next task. Two charging methods - via the case or USB cable - offer even more flexibility.

#### Connectivity to two devices simultaneously

Thanks to its dual connectivity feature, the M53 handset can be connected to two devices at the same time, which is ideal for those who work on several platforms. Whether you're using your phone and laptop at the same time, you can easily switch between the two.
