Wireless handset with microphone New Bee B41 (black)

Wireless headphone with microphone New Bee B41 (black).

The New Bee B41 Bluetooth headphone allows you to talk safely while driving. This way you can focus on the road while staying in touch with others. It offers high sound quality and long operating time on a single charge. Thanks to Bluetooth 5.0 technology, noise cancellation and the ability to connect to 2 devices simultaneously, the handset will work well both at work and in everyday use. In addition, the ergonomic design ensures comfortable wearing for hours.

Noise reduction and excellent sound quality

Thanks to CVC8.0 technology, the handset effectively reduces ambient noise, which guarantees clear and crisp sound during calls. Whether you're in the office, outdoors or driving, your caller will hear you loud and clear.

Up to 24 h of talk time

Equipped with a long-lasting battery, the New Bee handset provides up to 24 h of talk time or 20 h of music listening on a single charge. What's more, it stays in standby mode for up to 60 days. It takes only 2 h to fully charge, so you can quickly get it ready for further use.

Stable connection with Bluetooth 5.0

The handset supports the advanced QCC Bluetooth 5.0 chip, which provides a stable and fast connection of up to 10 meters. This allows

you to move freely without losing the signal. In addition, the device allows you to pair with 2 devices simultaneously and switch between them conveniently.

Ergonomic design

New Bee has made sure that the handset is comfortable even when worn for long periods of time. Special ear hooks and interchangeable ear pads guarantee a perfect fit for any ear. The handset is lightweight and provides stability, so you don't have to worry about it falling out during use.

Universal compatibility

The New Bee Bluetooth headset is compatible with most Bluetooth-enabled devices, including laptops, computers, tablets, smartphones (iOS and Android) and even PS4 consoles. This makes it an ideal accessory for both phone calls, gaming and video conferencing.
