Wireless headphone with microphone New Bee M51 (black)

Wireless handset with microphone New Bee M51 (black)

The M51 Bluetooth handset is the perfect solution for people who need reliable equipment for phone calls. With its ergonomic design and practical features, it will be perfect for everyday use. Equipped with advanced Bluetooth 5.2 technology and a 500 mAh charging case, it provides long working time, stable connection and convenience of use.

Fast charging and long working time

The handset allows for about 12 h of talk time or 15 h of music playback. It remains in standby mode for about 180 days. Together with the case (500 mAh), the M51's operating time is 60 h. In addition, you can charge the headset with both a USB-C cable and a charging case.

Bluetooth 5.2

The Qualcomm Bluetooth 5.2 chip provides fast signal transmission, stable connection and a range of up to 15m. You can also pair the handset with 2 devices - so you can switch seamlessly between a business phone and a personal phone, or between a smartphone and a laptop, greatly enhancing the user experience.

Clear sound and effective noise cancellation

The M51 is equipped with an ENC-enabled dual microphone and CVC8.0 noise reduction, which effectively eliminates background noise, ensuring clear conversations even in noisy environments. As a result, the handset reduces noise by up to 96%, so you can be sure that your caller can hear you.

User comfort and versatile design

The handset features an ergonomic design that makes it wearable on either the left or right ear. You can also adjust the tilt angle up to 270°, which further allows you to perfectly fit the shape of your ear. In addition, the low allows you to use the M51 for a long time without discomfort.

High quality sound

The M51 handset is equipped with a 13-millimeter dynamic driver, which provides high-end sound. This significantly improves the quality of both phone calls and music playback.

Compatibility with various systems

The M51 handset works with iOS and Android systems. In addition, it is compatible with computers, laptops, allowing it to be used for office work or video conferencing. You will also pair the handset with a music player.
