Adapter Deans(T) męski do EC3 żeńskiego

Ref: 6928493307458

Deans(T) male to EC3 female adapter

The Deans(T) male to EC3 female adapter is a practical accessory that allows seamless conversion between different connector standards in RC power systems. It is particularly useful when you need to connect a battery with an EC3 connector to a receiver or other device that has a Deans(T) type connector. Its use guarantees a safe and stable connection. The adapter is made of high-quality materials, which ensures durability and reliability in the transmission of power, and the compact size makes it easy to store and transport.
