Colmi P73 Smartwatch (Black)

The Colmi P73 smartwatch is a practical device that combines advanced health monitoring features with everyday convenience. Designed for active people, but also for those who appreciate style and convenience, the Colmi P73 becomes an indispensable companion every day. With it, you will not only be able to monitor your health, but also enjoy many additional features such as Bluetooth connections, remote picture taking, music player control and much more.

Comprehensive health monitoring

The built-in optical sensor allows you to dynamically monitor your heart rate and blood oxygen level (SpO2), which is especially useful for those who care about physical fitness and overall fitness. The watch tracks changes in these parameters in real time, providing the user with accurate information about their health. In addition, the blood pressure monitoring function provides a complete picture of your health, helping to identify any abnormalities.

Improve the efficiency of your workouts

The Colmi P73 offers more than 100 different sports modes, from running and cycling to yoga or karate. Each mode provides detailed data on physical activity, such as calories burned, pace, duration and more, allowing you to accurately track your progress and customize your workouts. The ability to set workout goals and monitor them makes the Colmi P73 the perfect assistant to motivate you to achieve

better and better results.

Durable and waterproof

The Colmi P73 was created with durability and resistance to various elements in mind. It is IP68 and 3ATM certified, which means it is completely resistant to dust and water. You can wear it in the rain or during sports without worry. This kind of durability makes the Colmi P73 an excellent choice for people with active lifestyles who need reliable equipment that is ready to meet any challenge - from everyday tasks to extreme outdoor adventures.

HD display

The Colmi P73 smartwatch is equipped with a large 1.9-inch HD display for exceptional image quality and convenience. Thanks to the bright, colorful screen, all information is perfectly visible, allowing you to easily read notifications, health data or use other watch functions, such as controlling the music player or monitoring physical activity. In addition, the user can choose from 4 different menu styles, allowing the interface to be customized to individual preferences and providing even more personalization to the device.

Key functions at your fingertips

The watch allows you to easily control your music - you can play, pause and rewind songs directly from your wrist, as well as adjust the volume. Bluetooth Voice Calling allows you to answer calls and make calls without having to pull out your phone, adding convenience and comfort to your daily activities. This is an extremely useful solution for keeping in touch with loved ones and friends, while giving you full freedom of movement.

Impressive runtime

The smartwatch's 300 mAh battery allows you to use it for about 7 days on a single charge and stay in standby mode for up to 30 days. This kind of runtime means you can focus on your activities without worrying about the device suddenly discharging. This is a major convenience for people who lead busy lifestyles and need equipment that can keep up with them no matter what the circumstances.
