Ref: 6974363711672

iPega PG-P4020A wireless controller / GamePad PS4 touchpad (red).

Take your entertainment to the next level together with the iPega brand. You'll be helped by the iPega PG-P4020A GamePad, which will impress you with its smooth operation, but also with its modern design reminiscent of the world of superheroes. The GamePad has a 6-axis gyroscope and a dual motor that generates vibrations and deepens the immersion during the game. A built-in touchpad, 4 programmable buttons and a built-in speaker are additional advantages of the model.

Immerse yourself in the world of gameplay

The iPega PG-P4020A wireless controller is designed to maximize immersion during gameplay. The dual engine generates vibrations synchronized with the events on the screen and allows you to get even more immersed in the game. Also noteworthy is the 6-axis gyroscope, thanks to which the controller ensures accuracy and precision.

Programmable buttons and touchpad

Defeating opponents with the PG-P4020A will be even easier. Just use the four programmable buttons on the bottom of the controller and give them functions according to your needs. What's more, the product is equipped with a practical touchpad, which will provide you with excellent precision and fluidity - it will come in handy among others, during shooting games.

For fans of original design

Do you like comic books and the world of superheroes? GamePad PG-P4020A is sure to appeal to you! It delights with its original design, with its color scheme and texture referring to the Iron Man character. In addition, the controller has a colorful LED backlight, which will make night games more attractive. The product is compatible with the PS3 console, as well as desktop computers (wired).
