iPega Gold Warrior PG-9218 Wireless Controller/GamePad

iPega PG-9218 gaming controller

Convenient to use, the PG-9218 game controller is distinguished by its compatibility not only with computers and consoles, but also with Android and iOS. Thanks to the telescopic mount, you can easily mount a phone up to 8 cm wide on it. You can connect the product to the device of your choice in 2 ways - wired or via Bluetooth. The colorful backlighting of some of the buttons makes it easier to operate the controller and gives it even more of a gaming feel. The PG-9218 also supports the TURBO function.

Wide compatibility - play on your favorite hardware

Play your favorite games and don't worry about compatibility issues. The PG-9218 controller works perfectly with a wide variety of devices. You'll connect it to a Windows PC, a Nintendo Switch console, and even to an Android or iOS phone or tablet (versions 11.0-13.3.1 only). Such wide compatibility of the device means that no matter what hardware you play on - you can always enjoy a dynamic, yet comfortable gameplay.

2 connectivity options - choose the better one for you

The product can be connected in 2 ways. A USB adapter operating in the 2.4G range allows you to connect the controller wirelessly to certain devices. Pair the PG-9218 with your phone or tablet via Bluetooth and enjoy almost unlimited freedom during gameplay. Alternatively, you can connect it via cable. This method of connection is appropriate for computers and Nintendo Switch, for example.

Intuitive buttons and TURBO function - enjoy your next victory

The controller's buttons have been placed in easy and convenient locations, so you can enjoy even the most dynamic gameplay and move on to the next level with ease. The device also offers a TURBO function that will give you an incredible acceleration. Get ahead of your opponents' movements and perform even the most complex actions and combinations without much effort!

Adjustable handle - comfortably mount your phone

The controller is equipped with a telescopic mount that allows you to securely, stably mount smartphones. Its maximum size is as much as 80 mm, which gives you a lot of possibilities. No matter what kind of phone you use, PG-9218 will most likely handle it and make you enjoy the convenience of playing your favorite mobile games.

Ergonomic design - play fatigue-free for long hours

The device is designed to provide you with unparalleled comfort. Thanks to its ergonomic design, it fits perfectly in your hands - you can play for hours without worrying about fatigue and wrist pain. The controller is also made of skin-friendly, pleasant-to-touch materials. What's more, the A, B, X and Y buttons have colorful LED backlighting, which makes it easier to play after dark.
