iPega PG-P4023B wireless controller / GamePad PS4 touchpad (black)

Ref: 6974363711665

iPega PG-P4023B wireless controller / GamePad touchpad PS4.

Immerse yourself in the world of gaming with the PG-4023B! The iPega controller is equipped with a 6-axis gyroscope guaranteed for smooth operation, while 2 vibration-generating motors add to the immersion. You can also personalize its operation using programmable buttons, and the built-in touchpad provides even more comfort. Check out what else it can surprise you with!

For more immersion

Feel like the hero of your favorite title! The controller is equipped with 2 motors that respond to events during gameplay with gentle vibrations, thus increasing immersion. In addition, the 6-axis gyroscope is responsible for more accurate detection of directions and ensures precision. This allows you to dodge projectiles and negotiate turns with ease.

Built-in touchpad

For an even greater user experience, the PG-4023B is equipped with a touchpad, which is great for shooting games. As a result, you can enjoy even more precision and fluidity during gameplay.

Customize its operation to suit your needs

This is not the end of the PG-4023B's advantages. The GamePad offers programmable L and R buttons, allowing you to personalize its

operation. With just one click, you can activate your favorite function or perform a complex combination of movements.

More amenities

The controller is equipped with colorful LED backlighting, giving the PG-4023B a gaming touch. In addition, the battery indicator will let you know its charge level, and the 3.5mm port allows you to connect headphones to the gamepad. In addition, the product has a built-in speaker.
