Extendable Selfie Stick PGYTECH P-GM-174 96cm

Ref: 6976100485037

PGYTECH P-GM-174 96cm selfie holder

The PGYTECH P-GM-174 selfie holder will help you capture unforgettable moments, allowing you to share your adventures and emotions with loved ones and the world. The standard 1/4 interface ensures wide compatibility with different types of cameras. What's more, it automatically disappears from your recordings, so you can take a selfie with a picturesque view without any trouble, and the stick will be completely invisible.

Discover new perspectives

The impressive length of the grip of up to 96 cm opens up completely new horizons of creativity. With this, you will not only capture yourself in all its glory, but also catch all the picturesque details of the landscape, architecture or even a crowd of people in the frame, creating amazing shots that impress.

Lightweight and durable

Made of durable aluminum alloy, the PGYTECH P-GM-174 selfie holder ensures durability for years to come. Its light weight - 130 g - makes it a real pleasure to use, and the non-slip handle guarantees a secure grip.
