

Petwant 4L automatic feed dispenser F17-C

Petwant 4L automatic feed dispenser F17-C

Ref: 5906168436192

Petwant 4L F17-C automatic food dispenser.

Petwant F17-C automatic food dispenser allows you to feed cats and dogs regularly, even when you are away from home. With a capacity of 4 liters and the option to program up to 10 meals per day, it guarantees full control over your pet's nutrition. In addition, the built-in 1080p camera allows you to keep an eye on your pet, speak to him or her, as well as take photos and record videos for even more peace of mind while you're away. The device is made of durable, damage-resistant materials and can be powered in two ways - with a cable or four D batteries.

Remote control via Wi-Fi and app

The Petwant F17-C dispenser supports 2.4G and 5G Wi-Fi, which allows you to manage it remotely, using a dedicated app. It allows you to easily set feeding schedules and adjust the number of servings no matter where you are. Now you have full control over the device at any time!

Transparent feeding tank

The dispenser is equipped with a large feeding tank with a capacity of 4 liters. This is enough for a really long time! What's more, it is transparent, which allows you to conveniently monitor the food level without having to open it. This way you'll always know when it's time to refill!

Flexible meal programming

With the ability to set from 1 to 10 meals per day and divide each meal into up to 10 servings, the Petwant F17-C gives you complete flexibility to customize your pet's feeding. By creating schedules, you are assured that your pet will receive exactly the amount of food it needs, allowing you to take care of its health and well-being.

Adjustable for different types of food

The Petwant F17-C dispenser is suitable for feeding dry food from 5 to 15 mm, as well as freeze-dried food. This gives you the freedom to choose the type of food that best suits your pet's needs, ensuring a varied and wholesome diet.

Built-in 1080p camera

The Petwant F17-C has a built-in 1080p camera that allows you to monitor your pet in real time. This way you always know what your pet is doing, even when you're not home! You can also take pictures, record videos and speak to your pet. In addition, a special camera cap allows you to cover the camera, protecting your privacy when you need it.

Two power ways

The F17-C supports two ways to power it - via a USB-C cable or four Type-D batteries (not included). Wirelessly, the device works for up to 30 days - so you can save electricity and be assured that even in the event of an emergency, your pet will receive its portion of food on time.

Durable construction and elegant design

The device was created from ABS plastic and stainless steel, making it durable and easy to clean. In addition, the 300 ml bowl is large enough to hold up to 200 g of food. This means that it will easily meet the different needs of pets. Another advantage of the dispenser is its compact size (216 x 350 x 327 mm) - it will not take up too much valuable space in your home.
