Petwant W4-S1 smart dog and cat fountain/drinker (stainless steel)

Ref: 5906168436253

Petwant W4-S1 smart fountain/drinker for dog and cat (stainless steel).

Petwant W4-S1 is a modern dog or cat fountain that will provide your pet with constant access to clean, fresh water. It is distinguished by its large capacity of 3.2 liters, which makes it ideal for both smaller and larger pets. Made of high-quality stainless steel - it is durable, safe and easy to clean. It also has a built-in rechargeable battery, so it can operate wirelessly.

Large capacity of 3.2 l - a supply of water for your pet

The Petwant W4-S1 fountain has a capacity of 3.2 liters, making it a great choice for homes with several pets. This means you don't have to worry about refilling it frequently, even when you're away from home for long periods of time. In addition, in case of power outages, the drinker provides a supply of 200 ml of water, ensuring that your pet will always be able to drink - even in emergency situations.

Built-in rechargeable battery

The Petwant W4-S1 fountain is equipped with a 5000 mAh rechargeable battery, allowing it to run for up to 80 days on a single charge. This allows you to freely place it anywhere or move it between rooms - you don't have to limit yourself to available outlets. Worried about forgetting to charge it? Don't be - when the battery is close to draining, the device will notify you.

Quiet operation

Petwant W4-S1 works extremely quietly, generating a sound of only about 25 dB. As a result, it does not disturb household members and does not stress pets - it will be perfect even for noise-sensitive pets.

Triple filtration system - a guarantee of clean water

The fountain offers a triple filtration system, which includes non-woven fabric, ion exchange resin and activated carbon. This effectively traps dander, unpleasant odors and harmful substances, providing your pet with water of the highest quality.

Three modes of operation to choose from

The Petwant W4-S1 fountain offers three different modes of operation, so you can adapt its operation to your pet's needs and habits. The motion sensor mode activates the water flow when your pet approaches the device. It has a range of up to 2 meters, and the detection angle is 120°. Timed mode, on the other hand, sets the water in motion for 15 seconds every 15 minutes. There is also a constant flow mode, which can only be used when the drinker is connected to power.

High-quality stainless steel

The drinker is made of top-quality stainless steel, which is safe for pets and durable. You can also wash it in the dishwasher - its cleaning will not cause you any problem. The device also has a built-in water level indicator, so you can quickly and conveniently check if you need to refill it.
