

## Petwant White Pet Trimmer

Petwant White Pet Trimmer

Ref: 5906168436307

### Petwant White Pet Trimmer

Petwant EC-21 is a practical pet trimmer that is suitable for both dogs and cats. Thanks to its precise blades of two widths and convenient design, it allows for easy and accurate trimming of hair even in hard-to-reach places. In addition, the device works wirelessly, and its working time reaches 90 minutes on a single charge. Now you can easily take care of your pet's perfect look!

### Two blades included - precision in every detail

Petwant EC-21 trimmer is equipped with two types of blades. The standard blade is about 2.5 cm wide and is perfect for trimming large areas, such as the back or tail area. On the other hand, a narrow blade with a width of about 1 cm will provide you with greater precision - you can successfully use it to trim the hair on the paws or near the ears of your pet. All this makes the device easily able to cope with various tasks!

### Fast and efficient motor

Thanks to the motor speed of about 5,000 revolutions per minute, the EC-21 trimmer glides smoothly through the hair, ensuring accurate and fast trimming. The device can handle almost any type of fur, making grooming your pet much simpler and more enjoyable.

### Powerful battery - long working time

The Petwant EC-21 trimmer is equipped with an 800 mAh rechargeable battery, which allows for continuous operation for about 90 minutes. The cordless operation of the device provides unrestricted freedom of movement and makes hair clipping much easier. Forget about cables that are too short and tangled! What's more, charging the trimmer also takes about 90 minutes and is done via a micro USB port - so you can easily use not only a regular power adapter for this, but also a powerbank or even a computer.

Lightweight and handy design - convenience of use

The compact and lightweight design of the trimmer makes it extremely easy to use and maneuver, even when precisely trimming hair in hard-to-reach areas. The comfortable handle gives you full control over the device, making it easy to groom your pet.
