Ocoopa UT3 Lite 2x2500 mAh hand warmer, USB-C, black and orange

Ocoopa UT3053 2x2500 mAh hand warmer, USB-C (black and orange)

The Ocoopa UT3053 hand warmer is a compact and lightweight device that provides comfort on cold days. With a battery capacity of 2500 mAh in a single warmer (5000 mAh total with two devices), you can enjoy warmth for about 4 hours on a single charge. It's perfect for travel, in a coat or jacket pocket, and its magnetic design allows two heaters to be combined for easy transport and storage.

Fast heating and 3 temperature levels

The UT3053 offers 3 temperature settings: Low (38°C-42°C), Medium (43°C-47°C) and High (48°C-52°C), allowing you to adjust the heat level to suit your needs. In addition, it heats up instantly - in just 5 seconds - so you'll feel a pleasant warmth almost as soon as you turn it on. It's ideal for winter days when you need to warm your hands instantly.

Compact size and lightweight design

The Ocoopa UT3053 is distinguished by its compact size (8.6 x 4.8 x 3.6 cm) and light weight of only 128.6 g (for two devices combined). With a thickness of less than 2 cm, the heater fits perfectly in the hand and in the pocket, making it extremely convenient to use. In addition, it is 40% lighter than an iPhone, making it easy to carry, even for long periods of time.

Magnetic design and ease of use

Thanks to built-in magnets, two heaters can be combined into one, making them easy to store and transport. This feature also makes the device more versatile, as you can use one warmer in one hand or two at a time if you need more heat. The product is also easy to use, making it ideal for both everyday use and special occasions, such as hikes or winter outdoor adventures.
