

Sothing DSHJ-S-2110 shoe dryer (white)

Sothing DSHJ-S-2110 shoe dryer (white)

Ref: 6933172102293

Sothing DSHJ-S-2110 shoe dryer (white).

Get rid of moisture from your shoes once and for all! The Sothing DSHJ-S-2110 shoe dryer comes to the rescue whenever your shoes are wet from rain or damp after an intense workout. The warm air combined with the clever design allows you to prepare your shoes for reuse in no time. The dryer is also compact, so it can accompany you anywhere. It's worth having it at hand!

Drying with hot air

The device uses a hot air circulation system that effectively distributes heat inside the shoe, reaching even hard-to-reach places. It emits a stream of hot air at a temperature of about 60°C, which ensures fast and even drying of shoes.

Safe and convenient use

The Sothing DSHJ-S-2110 dryer is designed with safety in mind. The housing is made of heat-resistant material that will not deform under high temperatures. A built-in temperature sensor automatically shuts down the device if excessive heat is detected, preventing the risk of overheating. The timer function allows you to set the drying time (3, 6 or 9 hours), adjusting it according to the type of shoes and moisture level.

Portable design

Winter weekend in the mountains? Don't let wet shoes and clothes spoil your fun! Thanks to its lightweight and foldable design, the Sothing dryer is ideal for use at home and on the go. The small dimensions of the device (16 x 11 x 6 cm) and its weight (0.32 kg) make it easy to pack it in your bag or backpack. It's a portable solution that will work well not only for shoes, but also for gloves, socks or other accessories made of different materials, such as leather, rubber, cotton or suede.

Included
