Sothing DSHJ-S-2214 A shoe dryer (white)

Ref: 6933172103641

Sothing DSHJ-S-2214 A shoe dryer (white).

The SOTHING Zero Shoes Dryer is a device that will give you the comfort of dry shoes no matter what the conditions. Whether you are struggling with rainy weather, intense exercise or unpleasant odors, this dryer can handle any challenge. It will keep your shoes dry, fresh and ready to wear in no time.

Effective in the fight against moisture and unpleasant odors

The device is great for everyday use, especially during rainy weather or after an intense workout, when shoes can become damp and start to smell unpleasant. The dryer not only dries shoes, but also effectively eliminates bacteria and microorganisms that thrive in a humid environment. Thanks to the deodorization function, you will forget about unpleasant odors.

Safety and convenience of use

The SOTHING Zero Shoes Dryer has a built-in timer that allows you to precisely adjust the drying time to suit your individual needs. The device is made of fire-resistant materials, which ensures complete safety during use. The compact size and light weight make the dryer easy to carry and ideal for traveling.

Technology and efficiency

The dryer uses state-of-the-art PTC heating technology that quickly reaches a temperature of 55°C, enabling efficient drying without risking damage to footwear materials. The constant drying temperature prevents overheating and evenly distributes heat inside the shoe. The product has as many as 1,926 heating holes, which guarantees thorough and effective drying.
