Mcdodo CH-5500 15W Wireless Charger for iPhone (black)

Enjoy fast wireless charging with the Mcdodo CH-5500, a sleek and compact charger that delivers up to 15 watts of power. The product is distinguished by its wide compatibility and durable, wear-resistant design, so it can serve you well for a long time.

Fast charging

With an output power of up to 15 watts, the charger will allow you to charge your phone in a surprisingly short time. Forget about the long wait - with Mcdodo CH-5500 you'll have your equipment ready to go in no time.

Versatility and convenience of use

The Mcdodo CH-5500 wireless charger is designed with versatility and convenience in mind. Thanks to its folding leg, you can use it in two ways: flat or upright, as a stand for watching videos or making video calls. This functionality makes the device ideal for both office work and relaxation at home.

Stability and security thanks to strong magnets

The Mcdodo CH-5500 is equipped with 16 strong N52 magnets that ensure the stability of your iPhone while charging. You don't have to worry about shifting or accidental disconnection - your phone will stay in place. In addition, the silicone plate on the surface of the

charger protects it from scratches and sliding on the surface of your desk or table, making it more comfortable to use.

Compatible with a wide range of devices

The Mcdodo CH-5500 charger is compatible with most smartphones that support wireless charging. For devices other than the iPhone 12-15, you may want to additionally use a magnetic case or ring (not included). The charger is also ideal for charging AirPods.

Advanced protection technologies

The safety of your device is our top priority. Mcdodo CH-5500 is equipped with advanced technologies that protect it from short-circuiting, overheating, overcharging and overvoltage. This allows you to charge your devices without worrying about damaging them. In addition, the charger will not overheat, which increases its durability and safety of use.

Compact, durable design

The Mcdodo CH-5500 charger features compact dimensions (61 x 13.4 mm) and a lightweight design (62 g), making it ideal for those who value mobility. You can easily take it with you on a trip, to the office or to the university. In addition, the USB-C cable with a length of 1m provides convenience when charging. What's more, high-quality PC and ABS materials were used to make the charger, making it resistant to wear and damage. This is a device you can rely on for many years, regardless of the intensity of use.
