Mcdodo CA-5180 USB-A to USB-C cable, 1.2m (black)

Mcdodo CA-5180 USB-A to USB-C cable, 1.2m (black)

The USB-A to USB-C Mcdodo CA-5180 cable is an advanced solution for all your charging and data transfer needs. Equipped with modern features such as LED backlighting and a smart chip that adjusts current parameters - it provides reliability, safety and convenience. In addition, its sturdy construction with aluminum alloy components and nylon braid guarantee durability for years, regardless of the intensity of use.

#### Fast charging

The Mcdodo CA-5180 offers fast charging with up to 100 watts of power and up to 6 amps, allowing you to charge even the most demanding devices in no time. This makes the cable ideal for most smartphones and tablets equipped with a USB-C port.

#### Instant file transfer

The cable enables data transfer speeds of up to 480 Mbps, making even transferring large files such as photos or videos fast and hassle-free. Forget about the long wait!

#### Built-in LED backlighting

The Mcdodo CA-5180 cable is equipped with a subtle LED backlight that indicates the charging process and makes it easy to locate in the

dark. This makes it easy to find it even at night! What's more, the subtle light doesn't glare your eyes, making it comfortable to use in dark rooms.

#### Reinforced cable and smart chip

Mcdodo CA-5180 cable is synonymous with durability and reliable performance. The reinforced copper cable ensures stable and safe charging, and the smart chip automatically adjusts the current parameters to the needs of the connected device. This prevents overheating and overcharging, protecting your equipment from damage.

#### Durable design and wear resistance

The Mcdodo CA-5180 is made of high-quality materials, including aluminum alloy, which provides it with exceptional durability and wear resistance. In addition, the nylon braid protects the cable from mechanical damage, such as bending, stretching or abrasion, extending its life.
