KJK JNV30 infrared night vision binoculars

Ref: 5906168439346

KJK JNV30 infrared night vision binoculars

The KJK JNV30 infrared binoculars are an advanced device designed for monitoring in total darkness, offering exceptional image and video quality up to 1920x1080 HD. Equipped with a large 3-inch LCD screen and innovative infrared technology, this binocular is ideal for wildlife observation, farm monitoring, hunting, fishing, as well as security and surveillance purposes. With 32GB of memory for storing photos and videos, you can easily share your experiences with friends and family.

Unparalleled vision in the dark

The KJK JNV30 binoculars offer remarkable night vision thanks to its Ultra HD CMOS sensor and advanced infrared technology. The device is capable of recording smooth video up to 1920x1080 HD and capturing images up to 20 megapixels, both in daylight, low light and total darkness. This makes it an ideal choice for nature lovers who want to capture every detail of their nighttime adventures.

Large 3" display

The built-in 3" LCD screen on the KJK JNV30 binoculars provides a clear and stable image, allowing you to frame every shot perfectly. Thanks to a new image sensor, the binoculars offer the widest and farthest field of view ever achieved on KJK equipment. Features such as the 5x digital zoom and Anti-Shake technology allow you to capture every moment in extraordinary detail and unprecedented sharpness.

Discretion and comfort

The KJK JNV30 binoculars are designed with user discretion and comfort in mind. A state-of-the-art full-circle eyepiece minimizes light escape, and 15 levels of screen brightness adjustment allow the eye to quickly adjust to darkness without betraying the user's presence. This makes the binoculars an ideal tool for covert observation in the field.

The perfect gift for nature lovers

The KJK JNV30 infrared binoculars are the perfect gift for any lover of nature and outdoor adventures. With a one-year warranty and 24/7 customer support, users can rest assured that they will receive full support when needed. It comes with everything you need to start your adventure - binoculars, neck strap, carrying pouch, 32 GB memory card, USB cable, cleaning cloth and instruction manual.
