Wireless Bluetooth speaker EarFun UB00M X

EarFun UB00M X Bluetooth Wireless Speaker

The UB00M X speaker is the perfect combination of cutting-edge technology, powerful sound and stylish design that will make every moment spent with music special. Thanks to its rugged construction and water resistance, it will be your reliable companion no matter where you are. Opt for the highest quality and enrich your musical experience.

Powerful and clear sound

The speaker offers an impressive 80W of power distributed among four drivers - these include two 4-inch mid-bass drivers and two 20mm silk-dome tweeters. With JumboBass technology, the EarFun UB00M X enhances bass and improves sound quality, delivering crystal clear and powerful sound.

State-of-the-art Bluetooth 5.3 connectivity

Equipped with Bluetooth 5.3 technology, the speaker provides a constant connection to your equipment and low latency audio transmission. So you can enjoy your favorite music without interference and in the highest quality wherever you are.

Powerful battery and thoughtful design

The UB00M X can function for up to 30 hours on a single charge and in addition, it charges at an express pace with a USB-C cable for

maximum convenience. The powerbank function, stylish look and handy design make it ideal for any occasion and the built-in handle and stylish strap further facilitate transportation, making it a great companion for long trips.

Dynamic LED lights and water resistance

The built-in dynamic LED lights, which can be customized according to your needs, make the speaker not only practical but also aesthetically pleasing, plus the IPX7 water resistance makes the EarFun UBOOM X the perfect companion for the beach, lake or pool. From now on, you can continue any party even during the biggest downpour.

Advanced technology in the highest quality

The dedicated EarFun app allows you to configure the sound and personalize the LED lights, customizing the speaker to your preferences. A built-in microphone allows you to make hands-free phone calls, and support for voice assistant features adds even more convenience. In addition, the speaker offers Party Connect mode, which allows you to sync with up to 50 other speakers. This synchronization allows for a stereo effect. It's ideal for large parties and gatherings with friends, where powerful and clear sound is key.

Stylish and handy design

The EarFun UBOOM X is designed for comfortable use and long-lasting durability. Its stylish appearance and handy design make it ideal for any occasion, from home parties to long trips. The built-in handle and stylish strap further make it easy to transport, making it a great companion for any trip.
