Ref: 6941237122964

Joyroom JR-FN1 Funpods Series Wireless Headphones (black)

Joyroom JR-FN1 Funpods Series Wireless Headphones (black)

Meet the Joyroom JR-FN1 wireless headphones, which combine modern design with advanced technology. With Bluetooth 5.4, they provide an instant and stable connection to your devices, while support for AAC and SBC codecs guarantees excellent sound that will delight even the most demanding music lovers. They are also distinguished by ANC noise cancellation and long operating time. Enjoy your favorite tunes wherever you are - these headphones will always provide you with top-quality sound.

Hybrid ANC and transparent mode - full control

The Hybrid Active Noise Cancellation (ANC) feature is a real breakthrough for anyone who wants to enjoy music without distractions. This technology cancels out background noise by up to 42 dB, allowing you to fully focus on your favorite tunes. Prefer to hear clearly what's going on around you? Just turn on Transparent Mode - it allows you to listen to your favorite songs without losing touch with your surroundings.

High-quality surround sound

The Joyroom JR-FN1 headphones offer unique surround sound, so you can feel like you're at a concert anywhere. Immerse yourself in a world of superior sound quality and discover previously unknown details of the songs you love to listen to!

Exceptional call quality - always clear and noise-free

Thanks to four built-in microphones and an intelligent noise cancellation system, every phone call will be clear and crisp. The headphones accurately capture your voice while eliminating unwanted background noise. Whether you are talking in the office, in a cafe or on the street, your caller will hear you perfectly!

Long runtime, fast charging

With Joyroom, the fun doesn't end too soon. The headphones offer up to 7 hours of operation with ANC turned off, or up to 4 hours if you use the technology. You also don't have to wait too long for the JR-FN1 to be ready for use again - you only need about 10 minutes of charging to get up to 1.5 hours of playback.

Bluetooth 5.4

The Joyroom JR-FN1 allow you to connect to two devices simultaneously, so you can, for example, switch seamlessly between your smartphone and laptop. The headphones support Bluetooth 5.4 connection, which means they guarantee not only instant pairing, but also stable transmission without interference or lag.

Reliability and comfort in any situation

The headphones are distinguished by IP54 water resistance, so you don't have to worry about rain or sweat. They will be perfect for workouts or autumn walks! In addition, the sturdy construction of ABS and PC materials makes them durable, and their ergonomic shape ensures comfort even during prolonged wear.
