

Joyroom car mount ZS392 (black)

Joyroom car mount ZS392 (black)

Ref: 6956116711030

Joyroom car holder ZS392 (black)

The Joyroom ZS392 car mount is an ideal solution for those who appreciate convenience and security while driving. It is compatible with smartphones with a screen size of 4.7" to 7", and thanks to its sturdy design, it guarantees their stability in any situation. What's more, the accessory fits most air vents (except round ones).

Forget about the noise

Specially designed damping structure ensures that the mount does not generate any unnecessary sounds while driving - forget about unpleasant crackles and rasps. This is especially important for those who appreciate comfortable travel without annoying noises.

Ultra-secure attachment - steel hook

The mount is equipped with an improved steel hook that allows it to be securely mounted on the grille. This way you don't have to worry about your phone falling and being damaged - even if you're driving on a rough road or making sudden maneuvers.

Convenience of use

Thanks to the gravity mechanism, operation of the mount is extremely simple and intuitive. All you have to do is place your phone in the holder and it will automatically adjust to its size, providing a secure hold. You can operate it with one hand, which makes using your

device while driving even more comfortable.

Elegant and durable

The solid aluminum alloy construction not only adds elegance to the handle, but also guarantees durability for years to come. The accessory is resistant to wear and tear, and its minimalist design makes it fit perfectly into any car interior.

Full 360° adjustment

Joyroom ZS392 allows you to rotate the smartphone placed on it in a full 360° range. So you can position it at any angle, giving you the perfect view of the screen. Whether you're using navigation or using a music player, you'll always find the optimal position!
