

Superfire TH03 multifunction flashlight

Superfire TH03 multifunction flashlight

Ref: 6975515773517

Versatility of use

The Superfire TH03 multi-function flashlight is a compact, lightweight and versatile device designed for users looking for a reliable light source for both everyday use and outdoor activities. Thanks to its clever design, the Superfire TH03 can serve as both a regular flashlight and a headlamp, increasing its functionality in a variety of conditions. Made of durable aluminum alloy and equipped with several operating modes, the TH03 is an excellent choice for those who value convenience and reliability.

Several modes of operation

The Superfire TH03 flashlight combines the functions of a handheld flashlight and a headlamp, making it an extremely versatile tool. Thanks to its small size (80.5 x 27 x 24 mm) and weight of only 58 grams, it is easy to carry and is not a burden to carry. The flexible mounting system with a silicone band allows the flashlight to be securely fastened to the head, making it suitable for activities such as climbing, camping and repairs. In addition, the TH03 flashlight offers a 180° adjustable illumination angle, which eliminates blind spots and provides full ambient illumination.

Several modes of operation

The Superfire TH03 uses a powerful 5W light source, generating a light output of up to 400 lumens. The flashlight offers 5 lighting modes: Strong/Medium/Low/Strobe/SOS. As a result, it allows you to adjust the light intensity to suit your current needs, from gentle illumination

while reading to intense light in emergency situations. The strobe and SOS modes can be crucial in situations requiring a call for help.

Efficient power supply

The TH03 flashlight is powered by a powerful 16340-type battery, which provides a long runtime of about 2 hours on a single charge. The USB-C charging port allows fast and convenient charging with various devices. In addition, an LED indicator shows the state of charge of the battery: a red light indicates charging, and a blue light indicates full charge. This practical solution eliminates the risk of sudden energy depletion, ensuring that the flashlight is ready for use in any situation.

Compact and durable design

The TH03 flashlight's compact size and light weight make it ideal for everyday use and outdoor activities. Made of high-quality aluminum alloy, it is resistant to mechanical damage, and the IP43 waterproof rating provides protection against rain and accidental splashes. This makes it an indispensable tool in harsh weather conditions, while hiking or camping.

Included

flashlight
16340 rechargeable battery (500 mAh)

USB-C cable

handle

headband

Manufacturer Superfire
Model TH03
