Superfire HL23-S headlamp flashlight, 350lm, USB-C

Superfire HL23-S headlamp flashlight, 350lm, USB-C

The Superfire HL23-S headlamp flashlight will meet the requirements of users in the toughest lighting conditions. Designed for maximum comfort and functionality, the HL23-S offers a wide range of lighting modes, as well as innovative features that make it easy to use. It is the ideal choice for those who need a reliable light source for outdoor activities, working in harsh conditions or everyday use.

Multiple lighting modes for every situation

The Superfire HL23-S is equipped with up to 9 lighting modes to suit different scenarios and user needs. At your disposal are: Strong, Medium, Low, SOS, auxiliary light, main and auxiliary light, red light and red strobe light. With such a wide variety of modes, the HL23-S is perfect for both long hikes and emergency situations.

Adjustable illumination angle and wide range

The HL23-S flashlight offers an adjustable illumination angle of up to 45°, allowing you to fine-tune the direction of light to suit your needs. The illumination range is 120 meters, making the flashlight ideal for illuminating large areas such as mountain trails or construction sites. The adjustable angle of the flashlight's head allows you to conveniently adjust the light beam, which significantly improves the comfort of use, especially in difficult terrain.

Compact and lightweight design

The Superfire HL23-S stands out for its lightweight design, weighing just 70 grams, making it extremely comfortable to carry for long periods of time. Its compact size (62 x 40 x 38 mm) makes it easy to store and transport. This makes the flashlight an ideal companion on long trips.

Innovative motion sensor

The HL23-S is equipped with a state-of-the-art motion sensor that allows the flashlight to be turned on and off with a simple wave of the hand within 10 cm of the device. In addition, the sensor allows you to quickly switch between red light and red strobe modes, making it safer to use at night.

Durability

The HL23-S will perform well in a variety of weather conditions. It is waterproof, dustproof, shockproof and snowproof, making it a reliable tool in all circumstances. The flashlight can withstand falls of up to 1 meter, which further confirms its durability and resistance to mechanical damage. These features make it an ideal choice for people who often work in harsh and demanding conditions.

Comfort of use

The HL23-S flashlight was designed with user comfort in mind. It has a flexible, adjustable strap that is comfortable to wear for long periods of time. Robust construction, ease of use and versatility make the HL23-S an indispensable piece of equipment for any outdoor enthusiast.
