

## Latarka Superfire S3-A

Latarka Superfire S3-A

Ref: 6975515772671

### Superfire S3-A Flashlight

The Superfire S3-A flashlight will be an indispensable companion in any situation - from outdoor expeditions to domestic emergencies. It offers 146 lumens of light, and its runtime reaches up to 9 hours. A variety of light modes, waterproof design and solid workmanship with high-quality materials make it ready to meet any challenge.

### Excellent visibility in all conditions

The Superfire S3-A flashlight is equipped with two lighting modes for versatile use. The spotlight mode provides long-distance illumination of up to 214 meters, ideal for walking at night or in difficult terrain. Floodlight mode provides a wide field of view of up to 260 cm in diameter, which is invaluable for jobs that require illuminating a large space.

### Lightweight and handy

One of the biggest advantages of the Superfire S3-A flashlight is its compact design. Its light weight (70 g) and length of just 117 mm make the flashlight a no-brainer, even on long trips. It can be easily stowed in a pocket or clipped to a backpack to have it always at hand.

### Ready for any challenge

The flashlight is designed for use in all weather conditions. Thanks to its waterproof design, the Superfire S3-A works reliably even in heavy rains, making it an excellent choice for outdoor use. What's more, with an aluminum housing that quickly dissipates heat, the flashlight is not only durable, but also safe to use.

#### Choose from 5 light modes

The Superfire S3-A offers up to five light modes - Strong Light, Medium Light, Low Light, Strobe, and an SOS mode that can save lives in emergency situations. This versatility makes the flashlight ideal for a variety of lighting conditions, allowing you to fine-tune the light intensity to suit your current needs. Whether you need a bright light for searching the terrain or a softer light for reading a map, the Superfire S3-A provides the right mode for every occasion.

#### Up to 12 hours of operation

The flashlight can run for up to 9 hours on a single charge, making it an indispensable tool for emergencies, night hikes or everyday use. This is especially important during long hikes, camping or in situations where access to a power source is limited.
