Superfire HL91-X headlamp flashlight

Superfire HL91-X headlamp flashlight

The Superfire HL91-X headlamp is ideal for those who need a reliable source of light in any situation. Offering a brightness of 200 lumens, it allows you to illuminate the area at a distance of up to 220 meters, ensuring safety and security during night hikes, camping or working in harsh conditions. It provides up to 3 hours of continuous operation on a single charge, and thanks to a smart motion sensor, the flashlight can be turned on and off with a single gesture.

Versatile lighting modes

The HL91-X offers a variety of lighting modes, including Strong, Medium, Low, Strobe and signal. With two light sources - white and red - you can easily adjust the intensity and type of lighting to suit your needs. The red light and strobe flashing mode are especially useful in emergency situations, increasing your visibility and safety.

Excellent visibility

The HL91-X provides a brightness of 200 lumens, which is enough to illuminate distances of up to 220 meters, allowing you to navigate safely after dark. This powerful beam of light allows you to effectively illuminate even the most remote areas, which is extremely useful for night hikes, field trips, camping, or outdoor work after dark.

Smart control

The flashlight features intelligent motion control, which allows you to turn the light on and off through a simple hand gesture, without having to touch the buttons. This is extremely useful in situations where your hands are busy or you are wearing gloves.

Easy charging, long lighting time

The built-in 800 mAh 18650 battery provides up to 3 hours of continuous use on a single charge, and the charge indicator lets you know the status of the battery, so you always know when to recharge. The HL91-X charges via a USB-C port, ensuring quick and convenient replenishment from various power sources, such as a laptop or powerbank.

Lightweight and comfortable design

The HL91-X flashlight weighs just 79 grams, making it extremely lightweight and comfortable to carry for extended periods of time. With an adjustable strap that can be adjusted to fit any head type, it provides stability and comfort, even during intense activities. Sturdy construction with a waterproof casing makes the flashlight perfect for harsh weather conditions such as rain or wind.
