

## Superfire HL96 headlamp flashlight

Superfire HL96 headlamp flashlight

Ref: 6975515773890

### Superfire HL96 headlamp flashlight

The Superfire HL96 headlamp is an indispensable tool for any outdoor enthusiast and those working in dark and hard-to-reach places. Combining a compact, lightweight design with a powerful light output and long range, the HL96 provides comfort and reliability in all conditions. Equipped with several light modes and the ability to fine-tune the angle, this flashlight is ideal for night hikes, emergency repairs, as well as everyday situations where a reliable light source is needed.

### Variety of light modes

The HL96 flashlight features an impressive range of up to 220 meters, allowing precise illumination of distant targets and providing excellent visibility in all conditions. Equipped with several light modes, including Strong, Weak, Flash and SOS, the flashlight allows you to adjust the intensity of the light to suit your current needs, which is extremely useful during a variety of outdoor activities and emergency situations.

### Convenient charging

The HL96 is equipped with a micro-USB charging port for easy and convenient charging from various power sources, such as a laptop, power bank or car charger. The LED charge indicator lets you know the status of the battery, so you always know when it's time to recharge, providing you with an uninterrupted source of light on long trips.

#### Precise light angle adjustment

The flashlight has an adjustable angle of up to 45 degrees, allowing you to precisely adjust the direction of the light where you need it most. This is ideal when working in dark and cramped areas where lighting precision is crucial. The soft-touch rubber buttons provide comfort and ease of use, even when wearing gloves.

#### Unparalleled comfort wherever you are

Weighing just 79 grams, the HL96 is extremely lightweight and comfortable to wear, making it ideal for long hikes, night running, fishing or technical work in hard-to-reach places. Thanks to its ergonomic design and adjustable strap, it can be easily adjusted to fit any head type, ensuring comfort even during prolonged use.
