

## Darkflash GD68 Mechanical Keyboard, wireless (brown sugar)

Ref: 4710343797005

Darkflash GD68 Mechanical Keyboard, wireless (brown sugar)

Darkflash GD68 mechanical keyboard, wireless (brown sugar)

Take your gameplay to the next level or make your computer work easier. The Darkflash GD68 mechanical keyboard combines stylish design with state-of-the-art wireless technology to deliver the unmatched convenience and precision gamers and non-gamers expect. With a compact profile and 68-key layout, this practical device is built to achieve the highest level of performance. The keyboard also supports anti-ghosting and is compatible with Windows and macOS.

Top-of-the-line mechanical switches

Enjoy dynamic gameplay and smooth typing. The Darkflash keyboard guarantees lightning-fast response, and you can even press several keys at the same time without fear of conflict - now your every move will be properly registered. Mechanical switches are distinguished by their reliable performance, and if necessary, you can easily replace them.

Long working time

Do not worry that the keyboard will discharge at the least opportune moment. The GD68 is equipped with a powerful Li-ion battery with a capacity of 1200 mAh, which allows it to work for up to 100 days. Its convenient charging is enabled by the built-in USB-C port. It won't take too long - after just about 2 hours the keyboard will be fully operational again! There is also a built-in switch that allows you to quickly turn the device on or off - use it to save power.

#### For your convenience

The keyboard features an ergonomic design, so you can enjoy unsurpassed comfort when you play games or work. Forget about wrist pain and fatigue! In addition, built-in feet allow you to freely adjust the height of the device, and thanks to non-slip pads, prevent it from sliding on the surface of your desk. The GD68 is also equipped with light indicators that will provide you with information about the battery charge level and connection status.

#### Various connectivity options

The Darkflash GD68 keyboard supports up to 3 different ways of connection - via USB cable or wirelessly, via Bluetooth or in the 2.4G band. You can also easily pair it with more than one device - for example, a laptop and a smartphone. You don't have to limit yourself anymore! What's more, the keyboard's USB receiver is located under one of its feet - don't worry about losing it.

#### Modern and compact

Looking for a keyboard that will fit perfectly even on a small desk? The GD68 model will be a real hit! This practical device not only looks great, but is also extremely compact - its dimensions are only 103.7 x 313.2 mm! As a result, it will not take up too much valuable space. Also noteworthy are the durable keyboard keys, which are resistant to abrasion and dirt.

#### Included

Keyboard  
2x mechanical switch  
6x additional keycap  
Keyboard and switch puller  
Dust cover
