Adapter USB-C do USB-C Mcdodo OT-2450, auto power off

Mcdodo OT-2450 USB-C to USB-C adapter, auto power off

The Mcdodo CH-4992 charger is the perfect solution for all Apple Watch owners who appreciate fast and convenient charging. With its USB-C port, it offers exceptional charging performance, and its compact size makes it easy to fit in your pocket or purse. It's an accessory that will work well both at home and on the go.

Fast charging of up to 100W

The Mcdodo CH-4992 supports a charging power of up to 100W, which means your Apple Watch will be charged in no time, and you can quickly get back to your daily routine. The high power ensures that you won't have to wait long for your device to fully charge, and the charger's versatility also allows it to be used with other USB-C-enabled devices.

Intelligent power management

The charger is equipped with an advanced power management system that automatically disconnects power when your Apple Watch is fully charged. This protects your Watch's battery from overcharging and extends its life. The technology also ensures charging safety by eliminating the risk of overheating.

Durable and elegant design

The case of the charger is made of damage-resistant aluminum alloy, which makes it not only durable, but also elegant. In addition, the charger is resistant to scratches and abrasions, which means it will retain its aesthetic appearance for a long time. An integrated lanyard holder ensures that the charger is easy to carry and difficult to lose.

Universal compatibility

The Mcdodo CH-4992 is compatible not only with the Apple Watch, but also with other devices equipped with a USB-C port, including laptops, smartphones and tablets. It's a versatile device that will meet the needs of any user, regardless of the equipment used.
