

Mcdodo CA-2350 USB-A to USB-C cable, 6A, LED display, 1.2m

Ref: 6921002623506

Mcdodo CA-2350 USB-A to USB-C cable, 6A, LED display, 1.2m

Mcdodo CA-2350 USB-A to USB-C cable, 6A, LED display, 1.2m

The Mcdodo CA-2350 cable is an advanced accessory for fast charging and data transfer. With support for 6A charging and a built-in LED display, it allows you to not only charge your devices instantly, but also monitor the charging speed in real time. The 1.2-meter cable length ensures comfortable use in a variety of conditions.

Fast charging with 100W power

The cable supports fast charging of up to 100W, which makes it ideal for charging not only smartphones, but also more demanding devices such as laptops and tablets. The stable voltage guarantees battery safety and extends battery life.

Dynamic LED display

The built-in LED display shows the charging speed in real time, so you always know how fast your device is charging. The lighting effects additionally give the cable a modern, dynamic look, making it not only practical, but also a stylish accessory.

Durable design and damage resistance

The zinc alloy housing and braided nylon braid make the Mcdodo CA-2350 cable extremely resistant to mechanical damage, abrasion and everyday wear and tear. High-quality materials ensure the longevity of the product, even under heavy use.

Compatibility and high-speed data transfer

The cable is compatible with a wide range of devices equipped with a USB-C port, such as smartphones, tablets, laptops and other accessories. It also offers high-speed data transfer of up to 480 Mbps, allowing you to seamlessly transfer files between devices while charging.
