Mcdodo CA-5650 USB-A to USB-C cable, 6A, self-winding, 1.2m

Mcdodo CA-5650 USB-A to USB-C cable, 6A, self-winding, 1.2m

The Mcdodo CA-5650 cable is a unique solution for users who value order and convenience. With its self-winding feature, the cable automatically retracts after use, eliminating the problem of tangled wires. It offers fast charging for devices with a USB-C port, providing both efficiency and aesthetics.

6A fast charging

The Mcdodo cable supports a charging current of 6A, which translates into instant charging for your device. This makes it ideal for charging smartphones, tablets or other devices with a USB-C port for maximum efficiency and time savings.

Tangle-free curl function

Thanks to its innovative self-winding technology, the cable always stays tidy. Built-in magnets automatically retract the cable, making it ready to use at any time, while still being easy to carry. It's ideal for those who travel frequently or appreciate convenience in everyday use.

Durable design

The Mcdodo CA-5650 was designed with durability in mind. The sturdy aluminum housing and reinforced cable ensure resistance to

mechanical damage, while the flexible materials guarantee a long cable life, even with frequent use.

Charging and data synchronization

In addition to fast charging, the cable also offers data transfer at 480 Mbps, enabling fast and seamless transfer of files between devices. The Mcdodo CA-5650 is compatible with a wide range of USB-C devices, making it a versatile addition to your accessory collection.
