

Intelligent self-cleaning cat litterbox UBPet C20

Intelligent self-cleaning cat litterbox UBPet C20

Ref: 6931705006490

UBPet C20 intelligent self-cleaning cat litter box.

Forget about manually cleaning up after your pet - the UBPet C20 intelligent self-cleaning litter box will take care of it for you! The device effectively separates clean litter from dirt and is completely safe for pets. It can also be controlled via an app. The litter box is spacious enough to keep cats comfortable, and it can effectively eliminate unpleasant odors. What's more, the C20 model is compatible with different types of litter and is suitable for cats weighing from about 1.5 kg to 10 kg.

More possibilities with the app

The litter box can be controlled with a dedicated app, which provides a number of interesting possibilities. Using it, you can easily set a cleaning schedule or select the mode of operation. It is also possible to monitor the device's performance in real time and adjust the settings to suit individual needs. The app also allows you to track data related to your cat's health, such as, for example, frequency of litter box use or information about irregularities. You will also receive useful notifications.

For the sake of safety

Don't worry about your cat's safety. The litter box is equipped with 9 sensors that monitor whether your pet is in it or has already left it. In addition, thanks to its improved integrated design, the device eliminates any danger that could result in cuts or other injuries to your cat. With UBPet, your pet is safe!

Compatible with different types of litter.

No matter what kind of litter you use - the litter box is compatible with most common types. It works with bentonite, mixed, tofu, mineral and silicone litter without any problems. You don't need to buy any special type or change your pet's habits!

With your cat's comfort in mind

Do not be afraid of annoying noise. The C20 is distinguished by its low noise level, which is only about 38 dB - so it is very quiet and safe for your pet's hearing. What's more, the litter box is very spacious (capacity of 75 l), so any cat can use it comfortably.

Recognition of multiple cats

Do you have more than one cat? The C20 litter box will also work well in your home! The device can intelligently recognize pets based on their weight and record data on their health or how often they take care of their needs. This way you will have everything under control!

Cleanliness and freshness

With UBPet, you'll forget about the problems of cleaning the litter box. The C20 model automatically separates clean litter from dirt, which is directed to the trash bag - all you have to do is replace it once in a while! At the same time, the device is very simple and quick to clean - you will bring it to order in just a few moments. You also do not have to worry about unpleasant odors - special deodorizing cubes are responsible for their effective elimination.
