PGYTECH CapLock mount (neck mount + tripod)

### CapLock PGYTECH mount (neck mount + tripod)

The CapLock PGYTECH mount is a tool created for creatives who want to capture their most important moments from a unique perspective. It combines modern design, functionality and comfort, offering versatility and reliability in any situation. Whether you're a professional or a passionate filmmaker, PGYTECH's CapLock mount will help you take your videos to a whole new level, delivering an amazing experience and excellent recording quality.

### Unique recording perspective

Change the way you record your adventures! PGYTECH's CapLock mount provides an incredible POV (point of view) perspective that takes the viewer directly into the center of the action. It's perfect for filmmakers who want to capture every detail from a first-person perspective! Whether you're an extreme sports enthusiast, a travel vlogger, or simply want to capture everyday moments in a way that will captivate viewers, the PGYTECH mount allows you to capture every moment in a unique way.

### Comfort and safety for use

Made of soft, skin-friendly silicone, PGYTECH's CapLock grip guarantees comfort even during prolonged wear. The material is non-slip, providing stability and confidence that the device will stay in place, regardless of conditions. The internal stainless steel and aluminum construction allows for flexible customization while offering comfort and durability.

#### Quick installation and removal

PGYTECH's CapLock is designed for maximum convenience of use. The innovative quick-release system allows the unit to be assembled and disassembled in no time, saving time and eliminating any assembly difficulties.

#### Versatility and compatibility

PGYTECH's CapLock mount offers a 4-way adapter attachment, allowing both horizontal and vertical filming. Thanks to its numerous interfaces, the device is compatible with a wide range of equipment, from sports cameras to smartphones, making it an extremely versatile accessory for any filmmaker.

#### Stability on the move

During intense activities such as running or cycling, the chest strap ensures filming stability. As a result, PGYTECH's CapLock mount ensures that your shots will be smooth and professional, no matter how dynamic the situation.
