

Yeelight Screen Light Bar Pro RGB (silver)

Yeelight Screen Light Bar Pro RGB (silver)

Ref: 6924922218128

The Yeelight brand is part of the Xiaomi ecosystem.

Yeelight Screen Light Bar Pro monitor light

Ensure optimal lighting when you play games or work at your computer. The Yeelight Screen Light Bar Pro monitor lamp generates an eye-friendly light whose color you can customize to your liking. Enjoy the immersive gaming experience provided by Razer Chroma compatibility, and conveniently control the light with the Yeelight app or Google Assistant voice assistant. The product is also compatible with Amazon Alexa and Samsung SmartThings. Operation of the device is made easier with the included remote controller.

Immerse yourself in the gameplay

Now you can further immerse yourself in the world of your favorite game and identify with its protagonist. Compatible with gaming platforms such as Razer Chroma and Overwatch, the product offers fantastic lighting effects tailored to the events unfolding on screen. You can also pair the light with other devices in the Razer Chroma ecosystem - such as a keyboard - for an even more immersive experience.

Remote control with the app

Install the Yeelight app and gain access to a host of cool features. Using your smartphone, you can remotely turn the lighting on or off, as well as change its parameters such as brightness or color - among 16 million colors, you're sure to find something you like. The

application also offers many interesting modes that will allow you to create a unique atmosphere for any occasion. Take care of the right atmosphere when you're playing your favorite horror game or provide the optimal light for an e-sports tournament!

Integrate it into your Smart Home system

The product is compatible with such smart home management platforms as Google Home, Amazon Alexa and Samsung SmartThings. Add it to the system you're using and conveniently control all your devices from a single app! Once you've paired your lamp with the assistant of your choice, you can also control it with simple voice commands. With just a few words, you can turn on the light or change its color without moving!

It will also work well at work

Do you work from home? Or do you study remotely? The Screen Light Bar Pro lamp will come in handy for you! The device generates eye-friendly light and is designed to prevent glare. It will perfectly illuminate your keyboard, book or notebook. The lamp is also equipped with a magnetic mount, so you can angle it up to 25° so that the light it generates can optimally illuminate your desk top.

Easy to use

What else makes the Yeelight Screen Light Bar Pro monitor light so easy to use? You'll find a special controller included that allows you to control the device remotely. With it, you can, for example, turn the light on or off, adjust its brightness and color temperature, and select the mode of operation. All you have to do is twist or press it!
