

LED light set Yeelight Beam RGBIC Light Bar

LED light set Yeelight Beam RGBIC Light Bar

Ref: 6924922232261

LED light set Yeelight Beam RGBIC Light Bar

Create an amazing atmosphere in your room and experience unforgettable emotions while playing games, watching movies, or listening to music. You can do this with the Yeelight Beam RGBIC Light Bar set! It includes two lamps with addressable LED diodes, allowing you to easily adjust the light color to your preferences. You can also synchronize the lighting with your favorite songs or events happening on your monitor screen. The devices are compatible with Apple HomeKit, Google Home, Samsung SmartThings, and Amazon Alexa. You also have the option to use one of the lamps as a headphone stand.

Millions of Colors to Choose From

The lamps included in the set generate light from 3 sides - front, back, and bottom. This allows you to achieve stunning visual effects! You can also customize the lighting style to your preferences - you have up to 16 million shades to choose from! Furthermore, each LED diode can shine in a different color. Create a stunning gradient or prepare a crazy combination of colors - your imagination is the only limit!

Enhanced Immersion

Take the events from your favorite games or movies beyond the screen and enjoy the immersion you've always dreamed of. Yeelight Beam RGBIC Light Bar lamps have built-in microphones and use advanced software to smoothly adjust the light color to what's

happening on the monitor or TV. You don't need any additional cameras or devices for this!

Music Synchronization

Are you hosting a home party? Or planning a gathering with friends? Yeelight Beam RGBIC Light Bar LED lamps are also great for such situations! You can synchronize them with music so that the lighting color changes in rhythm with the played songs. It's the perfect way to create a unique atmosphere!

Even Easier Control

Controlling the lighting has never been easier. The Yeelight RGBIC Light Bar LED lamp set is compatible with the Matter communication standard, which means it works seamlessly with Apple HomeKit, Google Home, Amazon Alexa, and Samsung SmartThings. This allows you to easily operate it using your smartphone or voice commands! Add your new devices to the ecosystem you use every day and enjoy their convenient control - you don't have to switch between apps.

Exquisite in Every Detail

Yeelight Beam RGBIC Light Bar lamps stand out with their minimalist, modern design. This makes them a perfect complement to almost any space - from bedrooms and living rooms to gaming rooms. You can also use one of them as a stylish headphone stand, thanks to the included holder.
