

## Rockbros RHL400 bicycle light

Rockbros RHL400 bicycle light

Ref: 5906168432231

### Rockbros RHL400 bicycle light

The Rockbros RHL400 bike light is an ideal choice for any cyclist. Thanks to the use of a high-quality CREE XPG LED, it provides intense light with a maximum brightness of up to 400 lumens, thus increasing visibility on the road and ensuring safety after dark. There are also several light modes at your disposal. The light's operating time reaches 8 hours, and it will take about 3.5 hours to charge.

### It will light your way

The RHL400 is equipped with a high-end CREE XPG LED, so it can fantastically illuminate even large areas. It stands out with a range of up to 200 m and a brightness of up to 400 lm. It will be perfect for night driving! Now even if your trip gets a bit long, you don't have to worry - the Rockbros light will illuminate your way and allow you to return home safely!

### Several operating modes to choose from

Rockbros RHL400 lamp offers 4 light modes: High, Medium, Low and Flash. Among other things, they differ in the brightness of the light generated and the duration of operation. This allows you to adjust the operation of the device to your needs at any time and effectively manage energy consumption, choosing more energy-efficient options when full lighting power is not needed.

### Long operating time

The product is powered by a built-in 2000 mAh lithium battery, which ensures long-lasting operation - from about 2.5 hours in High mode to 8 hours in Flash mode. What's more, as the device discharges, the intensity of the light is gradually reduced, maximizing the runtime. Charging the light will not take long - about 3.5 hours is enough.

#### Design and mounting

The lamp has a lightweight but durable housing made of aluminum alloy, which makes it resistant to damage. It is also not intimidated by harsh weather conditions - it is waterproof according to the IPX6 standard. The device is also very easy to install. It is equipped with a special rubber strap, with the help of which you can easily attach it to the handlebars - you don't need any additional tools for this! In addition, the built-in light indicator will provide you with information about the status of the battery.
