

## Maono PD100X RGB Microphone Black

Maono PD100X RGB Microphone Black

Ref: 6972237682240

### Maono PD100X RGB microphone (black)

The Maono PD100X RGB microphone is an advanced tool for gamers and streamers, combining high quality sound with aesthetically pleasing backlighting. It provides full control over audio recording and broadcasting, and features compatibility with a wide range of devices, such as PCs and gaming consoles, thanks to its USB and XLR interfaces.

### Delightful sound

The Maono PD100X dynamic microphone features 24-bit / 48 kHz sampling and a frequency response of 40 Hz to 16 kHz. As a result, it can offer rich and clear sound in almost any situation - even in noisy environments. Its specially tuned cardioid capsule captures clear, crisp sound, allowing full immersion in a game or broadcast.

### XLR and USB interface

The PD100X is ideal for gamers looking to enhance the quality of their live broadcasts. The XLR connection provides high-end audio and flexible operation, as well as clear and stable signal transmission. The USB connection, on the other hand, offers convenience for beginners and professionals alike, allowing you to quickly set up a microphone for gaming, streaming or chatting.

### Advanced Maono Link software

Maono Link software is distinguished by its intuitive interface and offers convenient access to many useful functions. With its help, for example, you can adjust the microphone gain, use custom EQ settings, or select ambient noise reduction for the highest quality recordings.

#### Quick mute

Need to mute your microphone quickly? No problem! A convenient-to-use button on the device will allow you to do so. With its help you can quickly mute it, thus protecting your privacy and avoiding possible mishaps while streaming or recording.

#### Smart 2-in-1 dial

The microphone is also equipped with a special knob for independent control of amplification and monitoring volume. This is perfect for streaming and more! What's more, the built-in headphone jack allows you to monitor audio in real time, so you can communicate freely in games and collaborate as a team.

#### Colorful RGB backlighting

The PD100X also has customizable RGB backlighting with 3 modes and 19 color options - customize its look to your liking and create a fantastic atmosphere at your gaming stand! To change the lighting style, use the Maono Link software or the button on the bottom of the microphone.
