

Wireless headphones for kids Buddyphones Cosmos Plus ANC (Gr

Wireless headphones for kids Buddyphones Cosmos Plus ANC (Grey)

Ref: 4897111740187

BuddyPhones Cosmos Plus ANC (grey) wireless headphones for kids.

Looking for remote learning equipment for your child? BuddyPhones headphones will be perfect. They are equipped with a noise cancellation function, making it possible for your child to concentrate fully. In addition, they will take care of the little ones' hearing. The set comes with a hard case, which will allow you to safely store and transport the gadget.

Better learning

When studying or watching videos of online lessons, the active noise cancellation function that the headphones are equipped with will be perfect. This mode will ensure that your child will no longer need to turn up the volume, as it blocks out distracting background noises. Voice from other sounds will isolate the learning mode. This will make it crisp and clear. You will also find a built-in microphone in the headphones. With these features, your child will fully concentrate and be more productive.

Pleasant use

BuddyPhones headphones are not only very elegant, but also functional. Your child can use them wirelessly, as they are supported by Bluetooth BT5.0, and they work up to a range of 20 meters. In addition, their operation is very simple. The learning mode and noise cancellation mode are activated by pressing the buttons on the side of the headphones. This guarantees full focus.

Uninterrupted operation

The battery life of the headphones is 24 hours, so you are guaranteed uninterrupted operation. A sudden shortage of batteries? Not a problem. BuddyPhones have the ability to be connected via a cable as well, so even when the batteries are out, your child can still use them.

Safe hearing

BuddyPhones headphones are equipped with 3 different modes to protect your child's hearing. You can adjust them depending on the age, as well as the environment. Travel mode allows sound up to a maximum of 94 dB, baby mode up to a maximum of 85 dB, while, the last toddler mode, up to max. 75 dB. They are suitable even for the most sensitive, as they also have anti-allergenic ear pads.

Safety

BuddyPhones headphones are a guarantee of safety for the little ones. They protect children's hearing, but also have a very sturdy casing, which is furthermore made of child-friendly materials. They can be recycled.

Comfort and convenience

BuddyPhones headphones stand for safety and comfort, which is not only manifested in hearing protection or long battery life. They are also compact, as they are foldable. The included hard case will allow safe storage and comfortable transportation of the gadget. This way the child can always have them with them.
