Wireless headphones for kids Buddyphones Cosmos Plus ANC (Deep Blue)

Ref: 4897111740200

BuddyPhones Cosmos Plus ANC Wireless Headphones for Kids (dark blue).

Do you want your child to be able to fully concentrate while learning remotely? BuddyPhones headphones can enable him/her to do so, as they are equipped with noise cancellation and learning mode. In addition, they will be safe for the hearing of the youngest, thanks to 3 different modes. The convenient case included will make them easy to store and transport.

Headphones created for remote learning

The active noise cancellation function and learning mode that the headphones are equipped with are perfect for remote learning or watching videos of lessons. The first module blocks out distracting background noise, so your child won't have to turn up the volume. The second, on the other hand, will isolate the voice from background noises, making it clearer and cleaner. In addition, the headphones are equipped with a microphone. All these features will ensure your child's full focus.

Functionality

The distinguishing features of the BuddyPhones Cosmos Plus headphones are their distinctive design and functionalism. They are wireless and supported by Bluetooth BT5.0, so your child can use them in any position. Their operating range is 20 meters, and moreover, this gadget is very easy to use. The modes can be freely switched on using the buttons on the side of the headphones.

Uninterrupted operation

The battery life of BuddyPhones Cosmos Plus is 24 hours, so you are guaranteed uninterrupted operation. You also don't have to worry about running out of battery suddenly, as these headphones have dual connectivity. This means that when you run out of power, simply connect them with a cable. This way your child won't have to interrupt their work.

Hearing protection

BuddyPhones will help protect your child's hearing, as they are equipped with 3 different modes that can be adjusted to suit the environment or the age of the user. Travel mode will allow sound up to a maximum of 94 dB, baby mode up to a maximum of 85 dB, while toddler mode will allow sound up to max. 75 dB. For very sensitive children, the headphones are additionally equipped with anti-allergenic ear pads.

Comfort of use

With BuddyPhones Cosmos, the child will be assured of safety and comfort. These manifest themselves in hearing protection and long battery life, but not only that. In addition, they have a foldable design, so they are compact. In addition, the set comes with a hard case, which will facilitate transportation and storage of the gadget.
