Wireless headphones for kids BuddyPhones School+ (Pink)

BuddyPhones School+ wireless headphones for kids (pink)

Looking for versatile headphones for your child? The BuddyPhones School+ wireless headphones are perfect for both entertainment and learning! They are equipped with a detachable microphone and offer a special StudyMode that makes it easier to concentrate. What's more, the headphones automatically limit the volume to 75dB, 85dB or 94dB. Their operating time on a single charge reaches 20 hours, but you can also use them wired.

Tailored to your child's needs

Help your child focus better on learning. The headphones offer a special StudyMode that emphasizes the sound of the voice, giving it a clearer, cleaner character. As a result, it promotes concentration! What's more, BuddyPhones School+ protect users' hearing from damage. They automatically limit the volume to a level that depends on the selected mode - 75dB (Toddler), 85dB (Kids) or 94dB (Travel). So you can adjust them to your child's age and needs!

2 connectivity options

The headphones work wirelessly, so your child can enjoy freedom of movement. BuddyPhones' operating time reaches 20 hours on a single charge, and they have a range of up to 20m. It is also possible to connect them with a cable. This way you don't have to worry about the headphones discharging too quickly and preventing your child from studying or watching a movie!

Improved design

Don't worry that your child will accidentally break the headphones. BuddyPhones School+ are extremely durable and resistant to damage! They are also distinguished by an ergonomic design, so the youngest users can enjoy comfortable use. Pleasant-to-the-touch earcups prevent sweating and fit perfectly to the ears, and the included case makes it easy to transport the headphones. The child can also decorate the BuddyPhones with the included stickers.

Detachable microphone

With BuddyPhones School+, your child can actively participate in lessons or chat with his or her friends. The headphones are equipped with a high-quality microphone that records voice very well and offers passive noise cancellation. This minimizes distracting background sounds! With BuddyPhones, you can be sure that your child's teachers and friends will hear them without any problems. What's more, if the microphone is not needed for a while, you can simply unplug it.
